

# Performance Report

Average Annual Total Return Performance Report **as of April 30, 2012**

For contracts issued prior to May 1, 2003, or prior to the date on which state insurance authorities approve applicable contract modifications.

**RetireReady<sup>SM</sup> Choice NY**  
 a variable annuity issued by  
 Genworth Life Insurance Company of New York

<b>Insurance and annuity products:</b>	Are not deposits.	Are not guaranteed by a bank or its affiliates.
May decrease in value.	Are not insured by the FDIC or any other federal government agency.	

**MUST BE PRECEDED OR ACCOMPANIED BY CURRENT PRODUCT PROSPECTUS.**

## IMPORTANT INFORMATION

The following information is designed to help you better understand this performance report. Please read carefully and refer back to this section if you have any questions.

*This report is authorized for use only when preceded or accompanied by a current product prospectus, which describes investment objectives, risk factors, fees, and charges that may apply, as well as other important information. Please read the prospectuses for the product and underlying portfolios carefully before you invest or send money.*

### About Us...

#### Issuing Insurance Company

Genworth Life Insurance Company of New York (Genworth Life of New York)  
666 Third Avenue  
9th Floor  
New York, NY 10017

#### Principal Underwriter

Capital Brokerage Corporation  
6620 West Broad Street Building 2, Richmond, VA 23230  
Member FINRA

Genworth Life Insurance Company of New York and Capital Brokerage Corporation are members of Genworth Financial.

### About the Product...

Variable annuities are long-term investments designed for retirement purposes.

Variable products are sold by product prospectus, which describes investment objectives, risk factors, fees, and charges that may apply (e.g., mortality and expense, administrative charges, and surrender charges). The product prospectus also covers other features such as the death benefit and annuitization options.

The prospectuses for the underlying investments contain information on the investment objectives, risk factors, fees and charges as well as other important information about the funds and investment companies that should be carefully read and considered before investing. You can obtain the prospectus for the underlying investments by calling 888-GENWORTH.

#### Withdrawals/Surrenders

You may withdraw/surrender all or a portion of the contract value. We will not permit a withdrawal that is less than \$100 or that reduces contract value to less than \$1,000. If your withdrawal request would reduce contract value to less than \$1,000, we will surrender your contract in full. Surrender charges may apply.

Withdrawals/surrenders have the effect of reducing the contract value and any death benefits, including optional death benefits. Withdrawals/surrenders of taxable amounts are subject to ordinary income tax, and if taken prior to age 59½, an additional 10% federal penalty tax may apply.

**RetireReady Choice NY** is a flexible premium variable deferred annuity, policy forms NY1155 4/00 and NY5136 11/00, only available in New York. Ask your registered representative for details.

**All guarantees, including death benefits, and Guarantee Account, are based on the claims-paying ability of Genworth Life of New York.**

#### Portfolios

Variable annuities allow you to invest in portfolios that span the risk/reward spectrum. The value of a portfolio will fluctuate and, upon redemption, portfolio shares may be worth more or less than the original cost. Some portfolios are more volatile than others. Before investing, you should carefully read the applicable risk section in the portfolio prospectus.

High-yield securities portfolios are subject to greater credit risk and price fluctuations than portfolios that invest in higher-quality securities. The price yield of bond funds may fluctuate due to general market conditions and the credit quality of individual issues held in the fund. Bond prices are sensitive to interest rate changes, and a rise in interest rates will likely cause the prices of current bonds to decline. These portfolios are annotated in the tables with the superscript "H".

If you choose to invest in international portfolios, there are additional risks not associated with investing solely in the U.S. These risks include currency fluctuation, political risks, differences in accounting standards and the limited availability of information. These portfolios are annotated in the tables with the superscript "+".

Investing in real estate portfolios involves risks such as refinancing, economic conditions in the real estate industry, changes in property values, dependency on real estate management and other risks associated with a portfolio that concentrates its investments in one sector or geographic region. These portfolios are annotated in the tables with the superscript "R".

Portfolios that invest in stocks of small or emerging companies may have less liquidity than those of larger, more established companies and may be subject to greater price variability and risk than the overall stock market. These portfolios are annotated in the tables with the superscript "¶".

**An investment in a money market portfolio is not insured or guaranteed by the FDIC or any other government agency. Although the portfolio seeks to preserve the net asset value (used to calculate portfolio share value) of your investment at \$1.00 per share, it is possible to lose money by investing in the portfolio.**

These investment portfolios are not available to the general public directly and are only available in variable annuity and variable life insurance products. No assurance or representation is made that the investment results of any of the product's portfolios will be comparable to the investment results of any other similar portfolio available to the general public. This is true even if the other portfolio has the same investment advisor or portfolio manager, and/or has a similar name.

**Fees & Expenses...**

**Annual Contract Charge**

We deduct a charge of \$30 (assumed to be equivalent to 0.10% annually) from your contract value for certain administrative expenses incurred in connection with the contract. We will deduct the charge on each contract anniversary or if you fully surrender your contract. We will waive this charge if your contract value is at least \$40,000 on the contract anniversary date.

**Asset Charge**

For contracts whose annuitant is age 70 or lower at issue we deduct from the portfolios an amount, computed daily, equal to an annual rate of 1.45 of the contract value in the Separate Account. We assess this charge when we compute the net investment factor. The asset charge reduces the value of Accumulation Units and Annuity Units. The charge consists of an administrative expense charge at an effective annual rate of .15% and a mortality and expense risk charge at an effective annual rate of 1.30%

For contracts whose annuitant is age 71 or greater at issue we deduct from the portfolios an amount, computed daily, equal to an annual rate of 1.65 of the contract value in the Separate Account. We assess this charge when we compute the net investment factor. The asset charge reduces the value of Accumulation Units and Annuity Units. The charge consists of an administrative expense charge at an effective annual rate of 0.15% and a mortality and expense risk charge at an effective annual rate of 1.50%.

**Portfolio Management Fees & Expenses**

We deduct from the portfolios the fees imposed by the individual portfolios you have selected at the time the contract is put in force.

**Surrender Charge**

Performance results labeled "Contract Surrendered" reflect the deduction of a surrender charge. They also reflect the application of a free withdrawal privilege equal to 10% of purchase payments plus any gains. The surrender charge is a percentage of the purchase payments to date and varies by the number of years since any given purchase payment was made, as shown in the following table:

Contracts without Optional Enhanced Payment Benefit

Completed contract years since purchase payment	0	1	2	3	4	5	6+
Surrender charge	6%	6%	6%	6%	5%	4%	0%

Contracts with Optional Enhanced Payment Benefit

Contract years since purchase payment	1	2	3	4	5	6	7	8	9+
Surrender charge	8%	8%	7%	7%	6%	5%	4%	2%	0%

**Optional Benefits...**

**Enhanced Payment Rider**

The charge for this rider is taken daily from the contract value in the Separate Account at an annual rate of 0.15%. The Enhanced Payment Rider adds an enhanced payment amount of 4% to each Purchase Payment we receive, funded from our General Account. The enhanced payment amount is allocated on a pro rata basis to the Investment Options selected in the same ratio as the applicable Purchase Payment.

The bonus credit represents a guarantee subject to the claims-paying ability of Genworth Life Insurance Company of New York. Over time and under certain circumstances, the costs associated with the bonus credit may exceed the sum of the bonus credit and any related earnings. To receive the bonus credit, the annuitant must be age 80 or younger when the contract is issued. Any bonus credit paid will be recaptured if the free-look privilege is exercised. Variable annuity contracts are available that do not have automatic bonus credits and, therefore, may have lower costs and shorter surrender charge periods.

**About Past Performance...**

These returns are based on the performance of Genworth Life of New York VA Separate Account 1 (VA Separate Account 1) investment options. Any performance that precedes the adoption date was derived by reducing the portfolio's actual performance during the period by the fees and charges that

would have been imposed had the portfolio been in the policy during the period.

Performance results are calculated as if all the capital gains and dividends were reinvested. Performance results assume an initial investment of \$1,000 at the beginning of the periods shown with no withdrawals/surrenders taken or additional investments during the period. Performance results are calculated as if all the capital gains and dividends were reinvested. Returns for periods of less than one year are not annualized. The items listed in the Fees & Expenses section were deducted from the portfolio's performance. Performance results labeled "Contract Surrendered" assume that the contract was surrendered at the end of the periods shown and reflect the deduction of a surrender charge. The surrender charge varies by the contract years since any purchase payment as described in the Surrender Charge section. Performance results labeled "Contract Not Surrendered" are calculated at the end of the period shown but do not deduct surrender charges.

VA Separate Account 1 average annual compounded total return figures are calculated at the end of the periods shown, unless a portfolio was not available in the Separate Account during those periods.

#### **Standardized Performance**

Standardized performance results assume an initial investment of \$1,040 (\$1,000 hypothetical investment, plus a 4% bonus) at the beginning of the periods shown. The charge for the optional Enhanced Payment Rider is reflected. Performance is calculated from the Adoption Date.

#### **Non-Standardized Performance**

The charge for the optional Enhanced Payment Rider is not reflected. Performance is calculated from the underlying portfolio's Inception Date. This date may be different from the date the portfolio first became available in the contract. Performance that predates the adoption of this portfolio in the contract is therefore hypothetical in nature; it is noted in the tables with the symbol "\*\*". The return is calculated as if the portfolio had been in the contract for the period shown.

Performance numbers are based on values provided by the portfolio management companies and are believed to be accurate; however, Genworth Life of New York cannot independently verify them.

#### **Adoption Date**

The Adoption Date is the date the underlying portfolio became available in VA Separate Account 1.

#### **Portfolio Inception Date**

Portfolio Inception Date is the date the Securities and Exchange Commission (SEC) declared the underlying portfolio effective. Portfolio Inception returns are calculated from the portfolio Inception Date and not from the Adoption Date.

#### **Explanation of Symbols**

"NA" indicates that the performance for the period shown is not available. If a portfolio has not been available for the period shown, total return for the period it has been available, if any, is shown in the "Since Inception" and "Since Adoption" columns. The returns for subaccounts with a 12b-1 fee, noted in the tables with the symbol "\$", may reflect the historical performance of a different class of the underlying portfolio. For time periods before the portfolio's adoption of the rule 12b-1 plan, performance is restated based on the portfolio's 12b-1 fee.

#### **S&P 500**

## Average Annual Total Return Performance Report 04/30/2012

See Important Information beginning on page 2 for additional information including explanation of symbols used below.

The historic performance figures quoted represent past performance. The past performance illustrated is no guarantee of future results, and current results may be lower or higher than the figures quoted. The return and principal value of a portfolio will fluctuate and may be worth more or less than the original cost. The maximum surrender charge on this product is 8% if the Enhanced Payment Rider is selected, otherwise 6%. Please visit [www.genworth.com/retirementincome/portfolioreports](http://www.genworth.com/retirementincome/portfolioreports) for the most recent month ended performance figures.

### Standardized Performance Assuming Contract Surrendered for the Month Ending 04/30/12

Includes deduction of maximum rider charges. Although standardized performance is not defined for periods of less than one year, the performance of portfolios with less than one year of history is calculated using the same standardized methodology and displayed in the standardized performance pages.

## Average Annual Total Return Performance Report 04/30/2012

See Important Information beginning on page 2 for additional information including explanation of symbols used below.

The historic performance figures quoted represent past performance. The past performance illustrated is no guarantee of future results, and current results may be lower or higher than the figures quoted. The return and principal value of a portfolio will fluctuate and may be worth more or less than the original cost. The maximum surrender charge on this product is 8% if the Enhanced Payment Rider is selected, otherwise 6%. Please visit [www.genworth.com/retirementincome/portfolioreports](http://www.genworth.com/retirementincome/portfolioreports) for the most recent month ended performance figures.

### Standardized Performance Assuming Contract Surrendered for the Quarter Ending 03/31/12

Includes deduction of maximum rider charges. Although standardized performance is not defined for periods of less than one year, the performance of portfolios with less than one year of history is calculated using the same standardized methodology and displayed in the standardized performance pages.

## Average Annual Total Return Performance Report 04/30/2012

See Important Information beginning on page 2 for additional information including explanation of symbols used below.

The historic performance figures quoted represent past performance. The past performance illustrated is no guarantee of future results, and current results may be lower or higher than the figures quoted. The return and principal value of a portfolio will fluctuate and may be worth more or less than the original cost. The maximum surrender charge on this product is 8% if the Enhanced Payment Rider is selected, otherwise 6%. Please visit [www.genworth.com/retirementincome/portfolioreports](http://www.genworth.com/retirementincome/portfolioreports) for the most recent month ended performance figures.

Performance values marked "\*\*\*" predate the availability of the portfolio in the contract and are therefore hypothetical in nature. These returns were calculated as if the portfolio had been in the contract for the period shown.

### Non-Standardized Performance Assuming Contract Not Surrendered for the Month Ending 04/30/12

Does not include deduction of rider charges.
